

## **PRESS RELEASE**

August 16, 2014

Yesterday at about 1:00 PM, Deputies from the Yolo County Sheriff's Office located the body of a woman inside a home in the 26000 block of County Road 96, North of Russell Blvd. in the unincorporated area of Davis.

The Sheriff's Office received a call from a friend of the resident stating they were supposed to have dinner together the night before but the woman never answered the door. When numerous telephone calls went unanswered, the person called the Sheriff's Office. When deputies arrived they looked through windows and noticed the woman down. Deputies called paramedics and then entered the residence. The woman was pronounced dead at the scene.

An autopsy was completed within the last hour. Cause and manner of death has not been determined at this time, though further tests are pending. We are withholding identity of the woman until next of kin can be located and notified.

This is all the information we can release at this time. Chief Deputy Coroner Gina Moya will be sending out a separate e-mail, hopefully by the beginning of the week, with the woman's identity once notifications have been made.
